

ABOUT AMERICAN COPAK

American Copak Corporation is a finely tuned group of highly qualified professionals, extraordinary facilities and millions of dollars of the most modern machines. For nearly 30 years, we are known to provide practical, innovative expertise and packaging solutions. Whether you need one of our entire manufacturing facilities, intermittent production, short runs or a single line, we are eager to meet your processing, blending and packaging demands. Specializing in controlling your production "explosions," we listen, advise and produce huge quantities to meet your most exacting specifications in a highly organized protocol rich environment. We have full-time production specialists, microbiologists, mechanical and certified pest control personnel on staff. We are fully documented with complete process controls; SOPs, SSOPs, multiple HACCP programs, FDA, USDA, Organic and Kosher certifications. We provide complete microbiological testing, including advanced bio-luminescence.

National rollouts, new product introductions, club store pallet displays and year-to-year reliable ongoing manufacturing is our contribution to your success. Our history of bringing innovative production solutions to market is evidence of our strong and versatile capabilities. Unlike many of the negative comments our clients relate to us about their former contracting experiences, we provide flexible production options with the finest equipment, infrastructure and facilities.

WHY YOU SHOULD CHOOSE AMERICAN COPAK CORPORATION

Innovation, quality and our philosophy of "what's best for our client is best for us", are only a few of the reasons our esteemed Fortune 500 and lower volume clients insist on manufacturing with American Copak Corporation. Organic, Kosher and AIB certification is another. Maybe it's our competitive turnkey and toll fee rates, fully documented operations and our enormous array of packaging, processing and blending equipment. Our clients enjoy having the opportunity to work with our professional, friendly, highly organized and competent production team. After careful investigation, you will find there are no contract manufacturers in the United States better qualified or equipped to produce, warehouse and ship your products. Our quality controls, tracking, purchasing and customer service are unrivaled. Marketing teams appreciate and benefit from our innovative product, process and packaging concepts. You be the judge. American Copak Corporation is your best contract manufacturing option.
